

Your property restoration guide

Common technical terms you may encounter along the way

Assessor or **Adjuster** is a representative from TIO who monitors the construction work in progress and assesses the claim.

Works is a construction term used to refer to all work requiring completion for a specific building job.

Estimator is a person who calculates what needs to be done and provides a quotation quantifying and pricing the job.

Supervisor is the person who co-ordinates and supervises all the work to be completed.

Broker is a person who advises on which insurance cover caters for your needs.

How the process to rebuild your property works

1 WE RESPOND

When an insured event causes damage to your property our emergency **Makesafe** service provides fully qualified trades to ensure your property is safe and secure.

After the **Makesafe** has been completed, the **Assessor** will inspect and evaluate the damage, they will quantify the damage and arrange for an Estimator (repairer) to attend.

This will be made to suit your schedule.

We will provide you with specific details such as the relevant contact numbers.

2 WE INSPECT

This is a critical step toward having your repairs carried out. The Repairers play an integral part in the claim process and the approval of works. When the Repairer visits your property they will:

Confirm the repairs that need to be carried out.

Inspect the damage by taking measurements and photographs of the damage caused by the incident, in order to obtain a comprehensive description of the work to be completed.

Submit a comprehensive specification and price to complete the work.

3 WE DELIVER

When your claim is approved, the Repairer will contact you to confirm and co-ordinate the relevant documentation to be completed via email, or by letter.

This includes:

Authority to Proceed which authorises the Repairer to proceed with the repairs on your behalf.

Scope of Work This outlines the work to be completed at your property.

Domestic Building Contract is a formal written contract for work to be completed. This contract has been prepared to meet the requirements of the Domestic Building Contract Act and includes the relevant information relating to your job.

Deterioration (spoilage) of refrigerated foods

TIO Home Insurance Premium Policies

Buildings cover

Buildings insurance is designed to cover the physical structures and permanent fixtures that make up the home buildings. From the house itself, to your garage, sheds, in-ground swimming pools, paved paths, driveways, and built-in appliances, hot water systems, air conditioners.

Contents cover

Contents insurance covers the items or belongings owned by you and kept at the insured address. From furniture, portable household electrical appliances and carpet to BBQs and even clothes, shoes and handbags.

Deterioration (spoilage) of refrigerated foods

Note: cover applies to TIO Home Insurance Premium Policy

What's covered?

- We will cover you for up to \$1,000 if any refrigerated foods become inedible or your prescription medication that is required to be refrigerated is no longer safe for consumption or use due to breakdown, failure of electricity supply or accidental damage to a refrigerator or freezer unit at the risk address.

What's not covered?

- Damage caused by accidental or deliberate switching off of the power supply
- Loss or damage caused by the deliberate act of any power supply authority.
- Loss or damage caused by strikes.

Dos and don'ts

- **Do** take photos of the spoiled food or prescription medication before disposing.
- **Don't** consume unsafe food or prescription medication.
